ABOUT CIGRE

The International Council on Large Electric Systems, known as 'CIGRE' Headquartered at Paris, is a world renowned organization dedicated to constant improvement of power system technologies. The objective of CIGRE is to facilitate and promote the dissemination of technical knowledge and information on all the main themes of the field of electricity amongst 90 Member countries including India. CIGRE functions through its 16 Study Committees constituted for in-depth research and progress in specific areas of power system domain at international level. It is a matter of pride that India is represented in all the sixteen (16) CIGRE study Committees. In addition, some more experts from India are members of the Working Groups/Task Forces formed by these Study Committees.

CIGRE organizes its sessions every even year in Paris. The Technical Discussions/Meetings held during the Conference deliberate the technical papers presented in the parallel sessions in details for five days. The recent (44th) session of CIGRE held at Paris on 26-31 August 2012. About 5000 delegates from all over the world including 100 from India attended the session and about 300 technical papers, including thirteen (13) from India linked to the most up-to-date technical themes in the world of electricity, were presented in the session at Paris in 2012

The Committee for CIGRE (India), an affiliate of Central Board of Irrigation & Power, is the Indian Committee of CIGRE and co-ordinates the activities of CIGRE in India.
