

MADHYA PRADESH ELECTRICITY REGULATORY COMMISSION

**(Grid connected Net Metering) Regulations, 2015 Dated: 23-10-2015
with amendment Dated: 20-01-2017**

Sl. No	Description	Summary
1.	Eligibility	The eligible consumer may install the renewable energy system under net metering arrangement up to the permissible individual rated capacity of 1MW at HT.
2.	Capacity of Distribution Transformer	Cumulative capacity allowed at a particular distribution transformer shall not exceed 30% of the peak capacity of the distribution transformer.
3.	Energy Accounting and Settlement	<ol style="list-style-type: none"> 1. The distribution licensee shall show the quantum of injected electricity by the consumer in the billing period, quantum of electricity supplied by the Distribution licensee in the billing period, net billed quantum of electricity for payment by the consumer for said billing period and net carried over quantum of electricity to the next billing period separately. 2. Where the electricity supplied by the Distribution licensee during any billing period exceeds the electricity generated by the consumer's renewable energy system, the Distribution licensee shall raise invoice for the net electricity consumption after taking into account any electricity credit balance remaining from previous billing periods. 3. In such case where the eligible consumer is under the ambit of time of day tariff, as determined by the Commission from time to time, the electricity consumption in any time block (e.g. peak hours, off-peak hours, etc.) shall be first compensated with the electricity generation in the same time block. Any cumulated excess generation over consumption in any other time block in a billing cycle shall be accounted as if the excess generation occurred during the off-peak time block.
4.	Metering Arrangement	Net meters shall be used of accuracy class 1.0 or better or as per the specifications notified by the CEA.
5.	Penalty	As per the provisions of the Madhya Pradesh Electricity Regulatory Commission (Distribution Performance Standards) (Revision-II) Regulations, 2012 as amended from time to time.
6.	Other Charges	The renewable energy system under net metering arrangement, whether self-owned or third party owned installed on eligible consumer premises, shall be exempted from banking, wheeling and cross subsidy.
