TUNNELLING ASSOCIATION OF INDIA (TAI)

BACKGROUND

Location of various facilities underground will be the order of the day in the immediate future to ensure sustainable life for future societies by providing necessary infrastructure to accommodate transportation, communication utility networks and complexes for handling, processing and storage of many kinds of materials, more so in urban areas which will have to accommodate large populations. Application of New technologies besides use of sophisticated equipment for underground construction works would be warranted for execution of works in a cost effective manner conforming to sustainable development. With rapid growth of underground structure anticipated, there will be evolution of new technologies and innovative construction practices.

Tunnelling Association of India (TAI) is the Indian chapter of the International Tunnelling and Underground Space Association of India (ITA) established in 1991, has been involved in dissemination of information about the latest technological development in the execution of tunnel and underground projects by encouraging planning of the use of subsurface and to promote advances in the preparatory investigations for tunnels, design, construction and maintenance of tunnels and also by organizing symposia, seminars, workshops, and training courses, both at national as well as international level, in liaison with international organizations.

OBJECTIVES OF THE ASSOCIATION

- to encourage the planning of the use of the sub-surface and to promote advances in the preparatory investigations for tunnels and in the design, construction and maintenance of tunnels by bringing together information thereon and by studying questions related thereto;
- by organizing and co-ordinating studies and experiments;
- by publication of proceedings, reports and documents;
- by encouragement of collaboration with and support of International Programme in the field of tunnel engineering including cooperation with other organizations in the activities of common interest;
- to encourage membership in the adhering organizations;
- to provide an information service to all concerned with tunnel engineering about the development of techniques, new trends and experience gained by others to enable updating of knowledge;
- to act as a coordinating body in India for Tunnelling Association of India (TAI);
- to provide an information to all concerned with Tunnel Engineering about the development of techniques, new trends and experience gained by others to enable updating of knowledge.
- to allow specialists in the various disciplines to discuss their experiences, research work and or techniques at various fora.

BENEFITS

The Tunnelling Association of India (TAI) provides information regarding latest developments in the subject to its members. The member gets the following benefits:

- Tunnelling Association of India (TAI) Journal published Half yearly
- TRIBUNE Journal from ITA Secretariat – Electronic Format
- Literature/Information bulletins of seminar/ conferences pertaining to the subject being organized by different organizations in India/abroad
- Can submit papers to World Tunnel Congress and other events being organized by other National Committees through TAI
- Discounted rates for procurement of TAI publications and registration fee @ (10%) in the events being organized by TAI
- Enrollment of 05 representatives against the Institutional membership of the association whom we can send information/literature etc.

MEMBERSHIP ELIGIBILITY

Individual/individual life membership is open to any person engaged in or interested in tunnelling work involving planning, design and construction of tunnels and who is a graduate in engineering or science or with equivalent qualifications. Institutional membership is open to Organizations and Institutions which prepare projects, execute and supervise tunneling works and deal with the equipment involving tunneling.
