|---|-------------|
| Foreword  | (iii)       |
| <b>SESSION-I: INSULATION CO-ORDINATION</b>  |             |
| 1. Development of 1200 kV Transmission System in India<br><i>-I.S. Jha, Y.K. Sehgal and Subir Sen</i>   | 3           |
| 2. Considerations for Insulation Co-ordination for Indian 1200 kV System<br><i>-I.S. Jha, Dr. S.K. Agrawal, M.C. Bhatnagar, R.K. Tyagi and Kashif Usman</i>                           | 12          |
| 3. Insulation Coordination Studies for Seoni 765 kV Substation<br><i>-Chris van Merwe</i>   | 19          |
| <b>SESSION-II: FIELD TESTING &amp; COMMISSIONING-I</b>  |             |
| 4. Field Test Technology on UHV Stations-Overview   | 35          |
| 5. Special Requirements for Design and Testing of the External Insulation of Ultra High Voltage (UHV) Components and Research Needs<br><i>-Alberto Pigini</i>                         | 45          |
| 6. The Consideration and Experiences of UHV Metal Oxide Surge Arresters (MOSAs)<br><i>-Yoshihiro Ishizaki, Takayuki Kobayashi and Masahiro Kan</i>                                    | 65          |
| <b>SESSION - III: FIELD TESTING &amp; COMMISSIONING-II</b>  |             |
| 7. Development & Testing of 1100 kV GIS Jingmen substation  | 83          |
| <b>SESSION - IV: SWITCHGEARS</b>  |             |
| 8. Selection Criteria for 1200 kV Circuit Breaker Technical Parameters for Indian National Test Station<br><i>-Dr. S.K. Agrawal, M.C. Bhatnagar, R.K. Tyagi and Avinash Choudhary</i> | 97          |
| 9. High-Voltage Circuit-Breaker for 800 kV up to 1200 kV<br><i>-Thomas Chyla, Lutz-Rüdiger Jänicke, Nils Werning and Srinivas Gopa</i>  | 106         |
| 10. Extra Large Size Disconnectors: Mechanical Constraints and Innovative Solutions<br><i>-Vincenzo Girlando, Raoul Piccoli, Gu Enjie and Ferruccio Dianin</i>                        | 118         |
| <b>SESSION - V: POWER TRANSFORMER-I</b>   |             |
| 11. Development of a 1200 kV Transformer for Trial Operation<br><i>-Dr. René Wimmer, Dr. Mario Schenk, Dr. Jens Hoppe, Karsten Loppach, Michael Rösner and Wolfgang Kutzleb</i>       | 139         |
| 12. Special Design Considerations of 1200 kV UHVAC Transformers<br><i>-R.K. Singh, A. Deota, S.K. Gupta, S.G. Bokade, R. Mitra, R.K. Tiwari and A.K. Dave</i>                         | 145         |

|   | <i>Page</i> |
|---|-------------|
| 13. Development of 1200 kV Transformer for Bina Test Station<br><i>-Denny Chelladurai. E, Manish Yadav, Anil Kumar Bhatia and Vikrant S. Joshi</i>  | 153         |
| 14. 1200 kV Transformer Lead Exit Challenges and Solutions<br><i>-Ugo Piovan</i>  | 159         |
| <b>SESSION - VI: POWER TRANSFORMER-II</b>   |             |
| 15. Reliability of Dielectric Design of UHV Transformer for Powergrid's<br>1200 kV Testing Station at Bina, India<br><i>-G.Sreelatha and V.K Lakhiani</i>                                       | 175         |
| 16. Technical Assessment of Lead Exit and Design Process<br><i>-Emre Öztürk</i>   | 190         |
| 17. Criteria for Oil Selection Suitable for Use as Insulating Liquid in<br>UHV Oil Filled Equipment<br><i>-Dr. B. Pahlavanpour; J. Nunes and Miss Wetterhol</i>                                 | 197         |
| 18. The Challenge – Designing 1200 kV Transformer<br><i>-Transformer &amp; Rectifiers (India) Limited</i>   | 204         |
| <b>SESSION - VII: INSTRUMENT TRANSFORMER &amp; SURGE ARRESTOR</b>   |             |
| 19. Development of 1200 kV Capacitor Voltage Transformer for Indian<br>UHV Power System<br><i>-D. John Yesuraj, Shailesh C Mahajan Santosh H Bhong and Kishor S Shirke</i>                      | 223         |
| 20. Reliability of 1200 kV CVT under Severe System Conditions<br><i>-Sudhir Mahendra, Aseem Dhamija, K. M. Naik, R.K. Tiwari, and A.K. Dave</i>   | 237         |
| 21. 1200 kV UHV Level Capacitor Voltage Transformer<br><i>-Mohan Srinivasarao and Deepak Vaman</i>  | 244         |
| 22. Development of a 1200 kV Surge Arrester for the Indian<br>UHV Power System : Challenges & Triumphs<br><i>-D. John Yesuraj, Nitin Jha, Milind Zodage, Ramesh R. Awakale and S. Saravanan</i> | 254         |
| <b>SESSION - VIII: 1200 kV TEST STATION LAYOUT AND LINE DESIGN</b>  |             |
| 23. Design of Insulators Under Pollution Conditions: AC<br><i>-A. Pigini</i>  | 265         |
| 24. Considerations for Design of 1200 kV Substation Layout<br><i>-Dr. S.K. Agrawal, M.C. Bhatnagar, B.N. De Bhowmick and S.B.R. Rao</i>   | 281         |
| 25. Engineering Design Aspects for Installation of 1200 kV Sub-station<br><i>-D. Maheswaran, S. Sankaravel and D. Asokan</i>  | 290         |
| 26. Optimization of Design of 1200 kV Transmission Line<br><i>-Rajesh Kumar, Anish Anand and Rajiv Gandhi</i>   | 305         |
| <b>SPONSORS PROFILES</b>  | SP 1-16     |
