

# CONTENTS

<b>Message - David Croft, <i>President CIGRE</i></b>	vii
<b>Foreword</b>	ix
<b>SESSION I : LONG DISTANCE BULK POWER TRANSMISSION</b>	
<b>Theme Paper: Technological Developments in Bulk Power Transmission</b> <i>Mata Prasad</i>	I-i
1. The Development of the Coaxial Integrated Return Conductor DC XLPE Cable and the Factory Joint <i>Tetsuya Yamanaka, Manabu Yoshida, Satoru Maruyama and Yoshinao Muram</i>	I-1
2. The Economic Evaluation of A New Interconnection; What to Consider if AC or DC is Used <i>Michael H. Baker, John Loughran and Shaukat Sadullah</i>	I-14
3. Bulk Power Transmission Alternatives – A Comparison Between 800 kV AC and HVDC Systems <i>Gunnar Flisberg, Carl-Gote Carlsson and R.S. Moni</i>	I-23
4. A Study of Controlled Shunt Reactor Application for Bulk Power Transmission in Indian Network <i>Ram Nath, Aruna Gulati and A.K. Tripathy</i>	I-35
5. A.C. Electrical Energy Transmission Today and in the Future <i>G.N. Alexandrov</i>	I-42
<b>SESSION II : ROLE OF EHVAC TRANSMISSION SYSTEM</b>	
1. Probabilistic Method for Calculating Cross ARM Length using Probability Distribution of Wind Velocity <i>A.R. Moradian</i>	II-1
2. Optimization of Forces at Flexible Bus-Bars in High Voltage Substations <i>B. Vahidi, S.H. Hosseinian and H.R. Kamankesh</i>	II-9
3. Switching Overvoltage Analysis and Insulation Design on The KEPCO 765 kV Double Circuit Transmission System <i>Eung-Bo Shim, Jung-Wook Woo, Gil-Jo Jung and Jeong-Boo Kim</i>	II-16
4. Phase Shifting Transformers in India : Concepts and Applications <i>R.K. Parashar, S.V.N. Jithin Sunder, A.K. Tripathy and T. Chandrashekhar</i>	II-26
5. Technological Options for Future Transmission Systems in India <i>V.K. Prasher, I.S. Jha, Y.K. Sehgal and Subir Sen</i>	II-34
6. Economical Comparison of A.C. and D.C. Transmission Lines <i>G.N. Alexandrov</i>	II-45
<b>SESSION III : ROLE OF HVDC TRANSMISSION SYSTEM</b>	
1. Three Gorges - Changzhou HVDC: A Transmission Project for Bulk Power and System Integration in China <i>Abhay Kumar and Liu Ze Hong</i>	III-1

2. Gurun HVDC Converter Station: Control and Protection System  
*Shyful Bahrin and B. Ismail* III-7
3. HVDC: The Key To Releasing Remote Untapped Hydro Potential  
*John Loughran and Brian Gemmell* III-15
4. Integration of HVDC East-South Interconnector II in the Indian Network  
*V.K. Prasher, Devinder Kumar, C. Bartzsch, H. Huang and G. Plewka* III-23
5. Control and Protection System for the East-South Interconnector II HVDC Project in India  
*V.K. Prasher, Devinder Kumar, Gerhard Plewka, Hans Messner, R.K. Chauhan, S. Muckoo, Dennis Brandt, and Carsten Bartzsch* III-33
6. Operational Performance of Rihand-Delhi HVDC Transmission System in the Last Decade  
*V.K. Prasher, Devinder Kumar, Sanjay Mukoo, D.B. Tripathi and R.L. Panda* III-46

#### **SESSION IV : TECHNOLOGICAL DEVELOPMENTS IN HVDC AND EHVAC SYSTEM AND ROLE OF REACTIVE POWER COMPENSATION**

1. Garabi and Modular Back-To-Back HVDC, with Capacitor Commutated Converters (CCC)  
*Niclas Ottosson and Birger Jonsson* IV-1
2. Power Flow Control Using UPFC in Open Power Market  
*K.S. Verma, H.O. Gupta and S.N. Singh* IV-12
3. Self Tuning Power System Stabilizer Based on Artificial Neural Network (ANN)  
*Alka Adya, M.L. Kothari and Neelima Tambey* IV-22

#### **SESSION V : TECHNOLOGICAL DEVELOPMENTS IN HVDC AND EHVAC SYSTEM AND ROLE OF REACTIVE POWER COMPENSATION**

- Theme Paper:** Application of FACTS for Emergency Control of Power Systems  
*K.R. Padiyar and S. Krishna* V-i
1. Control Interaction between Facts Controllers in Multimachine System  
*N.K. Sharma, Arindam Ghosh and R.K. Varma* V-1
  2. Effect of PSS on Torsional Performance of An SSSC Compensated Power System  
*G.N. Pillai, Arindam Ghosh and A. Joshi* V-11
  3. The New Standard in HVDC: Thyristor Valves with Direct-Light-Triggered Thyristors  
*Peter Lips* V-20
  4. Application of Thyristor Controlled Braking Resistor (TCBR) for Damping of Subsynchronous Oscillations  
*Neelima Tambey and M.L. Kothari* V-30
  5. Identification of most Effective Locations and Tuning of Power System Stabilizers in A Multi Machine System  
*Vikram Sharma, M.L. Kothari, Neelima Tambey and Avdesh Sharma* V-40

#### **SESSION VI : TECHNOLOGICAL DEVELOPMENTS IN HVDC AND EHVAC SYSTEM AND ROLE OF REACTIVE POWER COMPENSATION**

1. Power System Stabilizer Tuning in India Grid—Field Experience  
*I.S. Jha, Y.K. Sehgal and Dilip Rozekar* VI-1
2. Improvement in System Performance with TCSC-A Case Study for Northern Region Grid  
*I.S. Jha, Mukesh Khanna and V. Thiagarajan* VI-11

3. The Application of a Relocatable STATCOM on the UK National Grid System  
*David J. Hanson, Chris Horwill, John Loughran and David R. Monkhouse* VI-18
4. Selection Considerations for Optimum Reactive Compensation Solution for Grid System Management in Developing Systems  
*Chris Horwill, Brian Gemmell and John Loughran* VI-28
5. STATCON Provides An Economical Solution for Fast Smooth Dynamic Reactive Power Compensation  
*P.L. Biswas, V.K. Shah and V.R. Kanetkar* VI-35

**SESSION VII : EVALUATION OF INTERCONNECTIONS – NATIONAL AND TRANSNATIONAL AND BULK POWER MARKETING IN DEVELOPING COUNTRIES**

1. The Reliability Aspects of the Power Interconnection Among the Mekong Sub-region Countries  
*Prutichai Chonglertvanichkul, Noboru Seki, Yasuhiro Yokosawa and Masahiko Mouri* VII-1
2. Operational Aspects of the Indian Electricity Grid Code and the Availability Based Tariff  
*S.S. Kulkarni and A.D. Palamwar* VII-10
3. Congestion Management in the Emerging Energy Market Structures  
*Sarika Khushalani, S.A. Khaparde and S.A. Soman* VII-15

**SESSION VIII : EVALUATION OF INTERCONNECTIONS – NATIONAL AND TRANSNATIONAL AND BULK POWER MARKETING IN DEVELOPING COUNTRIES**

- Theme Paper:** Restructuring of Australia's Electricity Supply Industry – Impact and Emerging Issues  
*Ashok Manglick* VIII-i
1. Bulk Power Marketing in Developing Countries  
*Sanjeev Mehra* VIII-1
  2. Power Transaction Allocation in A Deregulated Market using AC Power Transfer Distribution Factors  
*Ashwani Kumar and S.C. Srivastava* VIII-9
  3. Automatic Generation Control for Multi-Area System in A Deregulated Electricity Market  
*Barjeev Tyagi and S.C. Srivastava* VIII-18

**SESSION IX : RESTRUCTURING OF POWER SUPPLY INDUSTRY AND PRIVATIZATION**

- Theme Paper:** Restructuring of the Power Supply Industry in India  
*K.S. Chaube* IX-i
1. Restructuring of Power Supply Industry and Privatisation – Subsidies as Social Responsibility  
*Rabindra Tripathy and S.K. Khiani* IX-1
  2. Privatization of Power Industry-A Bibliographical Survey  
*Yog Raj Sood, Narayana Prasad Padhy and H.O. Gupta* IX-9
  3. Transmission Pricing in India – A Fresh Look  
*N.S. Saxena* IX-17
  4. Framework for Facilitating Power Trading in India  
*Anjan Roy, M.G. Raoot, P. Pentayya and R.K. Mediratta* IX-25

**SESSION X : OPERATIONAL CHALLENGES IN BULK POWER TRANSMISSION  
SYSTEM AND DEFENSE PLANS AGAINST MAJOR DISTURBANCES  
IN INTERCONNECTED POWER SYSTEM AND LOAD GROWTH AND  
GENERATION EXPANSION MISMATCH AND SLIPPAGES  
AFFECTING INTEGRATED OPERATION**

1. Operating Experience: The Western EHV Scenario in India  
*I.N. Trivedi and G.J. Bhatt* X-1
2. An Overview of System Disturbances in Western Region During The Period 1988-2001  
*Anjan Roy, M.G. Raoot, P. Pentayya and R. Chaturvedi* X-10

**SPONSORS PROFILES**

Power-Grid Corporation of India Ltd.	SL-1
Bharat Heavy Electricals Ltd.	SL-2
National Hydroelectric Power Corporation Ltd.	SL-3
Connect Consultants (India) Pvt. Ltd.	SL-5
Asea Brown Boveri Ltd.	SL-6

## SESSION I : LONG DISTANCE BULK POWER TRANSMISSION

<b>Theme Paper:</b> Technological Developments in Bulk Power Transmission <i>Mata Prasad</i>	I-i
1. The Development of the Coaxial Integrated Return Conductor DC XLPE Cable and the Factory Joint <i>Tetsuya Yamanaka, Manabu Yoshida, Satoru Maruyama and Yoshinao Muram</i>	I-1
2. The Economic Evaluation of A New Interconnection; What to Consider if AC or DC is Used <i>Michael H. Baker, John Loughran and Shaukat Sadullah</i>	I-14
3. Bulk Power Transmission Alternatives – A Comparison Between 800 kV AC and HVDC Systems <i>Gunnar Flisberg, Carl-Göte Carlsson and R.S. Moni</i>	I-23
4. A Study of Controlled Shunt Reactor Application for Bulk Power Transmission in Indian Network <i>Ram Nath, Aruna Gulati and A.K. Tripathy</i>	I-35
5. A.C. Electrical Energy Transmission Today in the Future <i>G.N. Alexandrov</i>	I-42
